

SampleFile multi-column extraction fixture

Invoice batch: 14 documents

Average confidence: 0.96

Fields: vendor, subtotal, tax, total

Use this PDF to test column-aware extraction.

Column one simulates report narrative text.

Column two carries field summaries and notes.

Parser should preserve reading order or column order.

Look for line grouping, heading detection, and table shifts.

Useful for OCR + layout extraction comparisons.

Footer note: review multi-column heuristic behavior.
